Sales Process Overview

Our sales cycle typically runs 4-8 weeks for Pro deals and 8-16 weeks for Enterprise deals.

Stage 1: Discovery (Week 1-2)

- Identify the prospect's current knowledge management pain points.
- Key questions to ask:
 - "How do your employees currently find internal information?"
 - "How much time per day do people spend searching for documents?"
 - "What tools do you currently use?" (Confluence, SharePoint, Notion, etc.)
 - "Have you experienced compliance issues due to outdated documents?"

Stage 2: Demo (Week 2-3)

- Show the AI-powered search in action with the prospect's industry-specific examples.
- Demo script: Upload 5-10 of their actual documents (with permission) and show real-time question answering.
- Key features to highlight:
 1. Hybrid search (semantic + keyword)
 2. Permission-based access control
 3. Citations in every answer
 4. Audit logging for compliance

Stage 3: Proposal (Week 3-5)

- Send a customized proposal within 48 hours of the demo.
- Include ROI calculation based on their team size and current search time.

ROI Formula:

Stage 4: Negotiation & Close (Week 5-8)

- Common asks: annual discount (offer 20%), extra training sessions, custom integrations.
- Never discount more than 30% without VP of Sales approval.
- Contract minimum: 1 year for Pro, 2 years for Enterprise.

Commission Structure

| Deal Type | Commission Rate | Accelerator (>100% quota) |

|-----|-----|-----|

| New Business | 12% of first-year ACV | 18% |

| Expansion | 8% of incremental ACV | 12% |

| Renewal | 4% of renewal ACV | 6% |

Quota is calculated quarterly. Commission is paid the month after the deal closes.

Ideal Customer Profile (ICP)

- Company size: 200-5,000 employees
- Industry: Technology, Manufacturing, Healthcare, Financial Services
- Pain point: Fragmented internal knowledge across multiple tools
- Budget: \$50k-\$500k annually for knowledge management
- Decision maker: VP of Operations, CTO, or Chief Knowledge Officer
